EXPERIENCE

Open Source Software(OSS) — Contributor

MAY 2017 - ON GOING

Contributed to OSS JS [code](#), Go [code](#), [docs](#), [RFCs](#), and in many other ways. To see some more of my OSS contributions checkout my [GitHub profile](#).

SingleMind Consulting, Portland — *Software Developer*

October 2018 - Present

Worked as a full-stack developer building VueJS and React(Gatsby) apps and their APIs. Built CI pipelines in Azure and Travis, and implemented Github and code review practices for better code quality.

Thug Design, Portland — *IT & Facilities Manager*

JUNE 2016 - APRIL 2018

Drove long term planning and new projects to make sure technology and facilities continued to meet business needs. Managed all technologies on a day-to-day basis to keep the business working.

SingleMind Consulting, Portland — *System Administrator*

APRIL 2015 - JUNE 2016

Managed technology to keep the business running, made recommendations on upgrades and replacements, and implemented new systems as needed.

Multnomah University, Portland — *Asst. Sys. Administrator*

FEBRUARY 2010 - APRIL 2015

Oversaw client systems deployment and management. Trained helpdesk workers and wrote documentation for staff and students. Assisted with network, phone, and server administration as needed.
